DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

See objections below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the O-ring seals (claim 7) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for

Art Unit: 3641

consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claim 1 is objected to because of the following informalities: "read position" should be respelled "rear position". Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-7 are allowable over the prior art.
4. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a hollow bolt having at least one radial bore and being slideably receiving a bolt guide, the bore being occluded by the bolt guide in a rear position of the bolt. For example, US 5769066 discloses a mechanism for a gas operated gun comprising a hollow bolt 20 adapted to move to a forward and rearward position (Figs. 22-24), a bolt guide 16, the bolt 20 having a plurality of radial bores 26 at a position such that said bores 26 is occluded by the bolt guide 16 (Figs. 22 and 24) in the rear position of the bolt but not in the forward position (Fig. 23) and a cylinder 108 surrounding the bolt 20, the cylinder having a radial port 104 communicating with a source of gas under pressure.

Art Unit: 3641

However, the bolt 20 does not slidingly receive the bolt guide 16 nor does the bolt when in the forward position occlude the radial port 104.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

A handwritten signature in black ink, appearing to be "B. L.", is written over the text of the fifth paragraph.
